Products & Services

Always the

first choice

Egg distribution

Since FT Global's humble beginnings back in the 2009, our traditional fresh white eggs have remained best-selling products. We source our Grade A Large Eggs directly from the best farm and distribute them to our customers island wide.

We has the ability to customize a solution to meet the intricate needs of each customer. We utilize various delivery methods, schedules, and transportation networks to optimize shelf life and ensure the customer's needs are met while maintaining egg quality.

FT Global are committed to delivering quality fresh eggs to your table. We have dedicated ourselves to seek out new opportunities and processes to set new goals for ourselves and our companies to preserve best practices, and adhering to our Food Safety Standards.

Soft drinks distribution

To further integrate our distribution of eggs and beverages, FT Global launched our soft drink distribution department in the November of 2016. , We aims to penetrate through the existing global carbonated beverage and drinking water market.

As the company developed, FT Global has also innovated existing products to meet the market requirement. Our drinking water series have been rebranded into our new product line as Tashifresh, which are available in two different sizes yet still maintaining its premium quality.

Today, FT Global has established the business organization both locally and internationally. The company has now successfully expanded to more than 10 countries. The major overseas market consists of Asia, Europe & Middle East.

FT GLOBAL

OUR GROWTH

One of the biggest milestones achieved by FT Global including the launching of soft drink distribution department in the November of 2016. , We aims to penetrate through the existing global carbonated beverage and drinking water market. As the company developed, FT Global has also innovated existing products to meet the market requirement. Our drinking water series have been rebranded into our new product line as Tashifresh, which available in two different size yet still maintaining its premium quality. Today, FT Global has established the business organization both locally and internationally. The company has now successfully expanded to more than 10 countries. The major overseas market consists of Asia, Europe & Middle East.

On that fateful day in 2018, we perfected the very first bags of Black Taurus Salted Egg Fish Skin Crisps. We probably should have kept them around to put in a display case someday, but they were just too darned good. Needless to say, an obsession was born. From that very first day, though, a single philosophy has guided us, use only the freshest, all-natural ingredients to create intensely flavored, wonderfully craveable dangerously addictive snacks you can feel good about eating. Over the years, we've carefully added new flavors and even expanded our line to include Taurus Salted Egg Potato Chips, Taurus Salmon Skin Crisps and Taurus Cereal Crispy Fish Skin, creating entire new categories for our fans to love. Today, as we look back on those humble beginnings, we're sincerely grateful to all the loyal fans that have made FT Global a part of their life.

We look forward
to a successful and delightful
journey ahead

Future Growth

The Future Looks Good beyond 2020

We constantly review our performance and progress through innovations and services. With a clear understanding for the market and consumer behaviour, we are able to introduce FT Global range of product and serve a wider demographical market. Also, branding and marketing strategies are re-conceptualised to create more brand awareness and brand recognition.

FT Global enjoys instant recognition because of our distinct reputation for quality products sold at competitive prices. To ensure that our products find favour with customers, we conduct regular market surveys, to monitor market trends and needs from end users and retailers. We have set our sights on becoming an International leader and a world class food-based manufacturing entity.

SUSTAINABILITY

Our Green Promise Extends Beyond The Ingredients

We're chipping in to live in harmony with the environment around us, through a variety of sustainable business practices. The truth is, we all need to care for the planet.

Here at FT Global, we strive to be mindful of our environmental footprint. In 2019 we launched an initiative that uses less packaging material than before. This reduces our annual greenhouse gas emissions from packaging and reduce plastic waste out of the landfill. Same Taste, Same Amount of Chips. Less Waste.

Since the early days, we've looked for ways to contribute to society. Upon request and whenever possible we had donate product, human resource and time to local organizations. Our efforts began at the grassroots level – from donating chips for fundraising events at local schools and to volunteering our time at area non-profits organizations.

Same Taste,
Same Amount of Chips.
Less Waste.
